

# HP Laser Photo Paper, Matt

**Designed for customers wanting to use their HP LaserJet printers to produce rich, vibrant colour photos and photo-intensive marketing materials. The ability to print on both sides makes this 200 g/m<sup>2</sup>, A4 paper ideal for leaflets and brochures.**

**Produce superb matt photos with rich, vivid colours.**

- Ultra-smooth matt coating on both sides delivers breathtakingly rich, vibrant colours.
- Produce professional-looking photos and photo-intensive documents from your colour laser printer or copier.
- Bright white paper ensures superb contrast and true colours.

**Make sure your documents feel as impressive as they look.**

- Sturdy 200 g/m<sup>2</sup> paper gives an impressively heavy, substantial feel to your photos and marketing materials.
- Immediate impact makes this superb paper perfect for cover sheets as well as entire high value presentations.
- Ultra-smooth matt surface also ensures a quality feel – people notice it as soon as they touch it.
- Part of a growing family of HP laser photo papers, enabling you to choose the size and finish that's most appropriate for the job.

**Print both sides with no show-through.**

- High opacity paper – produce one-sided or two-sided documents with no show-through.
- Choose it when you need to make an impression – ideal for high value, customer-facing materials such as brochures, leaflets, signs and other sales tools.
- Allows rapid, cost-effective in-house production of short-run, professional quality materials that would otherwise require an external print shop.

**Enjoy reliable, high quality printing every time.**

- Designed to deliver optimal performance with HP Color LaserJet printers.
- Fully compatible with most other laser printers & copiers capable of printing on 200 g/m<sup>2</sup> paper.
- Maximise your productivity and minimise waste with fewer jams, multi-feeds and mis-feeds.
- Low user intervention means you can leave documents to print and concentrate on getting other things done.

This bright white A4 photo paper features a matt coating on both sides for outstanding colour photos. This, combined with its 200 g/m<sup>2</sup> weight, makes it ideal for in-house printing of professional-quality, image-intensive colour documents.
